

Bluestock Fintech Internship

Day 4 Report

Name: Sai Sandeep Gedela

Internship: Data Analyst Intern

Project: Mutual Fund Analytics

Date: 29 June 2026

Objective

Perform advanced mutual fund performance analytics by calculating financial performance metrics, evaluating fund risk and return characteristics, generating fund rankings, and comparing fund performance against benchmark indices.

Work Completed

Computed daily returns, CAGR (1Y, 3Y, 5Y), Sharpe Ratio, Sortino Ratio, Alpha & Beta, and Maximum Drawdown for all mutual fund schemes. Developed a weighted Fund Scorecard, compared top-performing funds against the NIFTY100 benchmark, calculated Tracking Error, generated analytical charts, updated the Performance_Analytics.ipynb notebook, and pushed all deliverables to GitHub.

Deliverables

Performance_Analytics.ipynb
fund_scorecard.csv
alpha_beta.csv
tracking_error.csv
cagr_comparison.csv
max_drawdown.csv
sharpe_ratio.csv
sortino_ratio.csv
Benchmark Comparison Chart
Performance Analytics Charts

Outcome

Successfully completed the Fund Performance Analytics module and prepared all required deliverables for submission.
